

## A GOD SPEED SONG

(Translated from the Polish original)

We all sung this on our last day in Szczecin  
Which brought everyone to tears

The fire is dying yet  
Let's make a friendships circle<sup>1</sup>  
In the silence of night, in the light of stars,  
The last clasp of the hands.

Who learned the power of friendship  
Will not waste his words  
Around another fire, during another night  
See you all again

The flame of the friendship that connected us  
will not expire  
We won't let the relentless time  
to erase it

Who learned the power of friendship  
Will not waste his words  
Around another fire, during another night  
See you all again

1. Like the one we made after meetings, singing, then kneeling and saying Czuwaj (Be Prepared) to each other.
